

POST SPRINT REVIEW REPORT

We work in sprints. This means in the long list of todos to deliver a project, this report will collate the five to six items due in one week. The project team must focus to close each deliverable to remain on track.

How to use this file: Download this in Excel or make a copy. Project coordinators must fill in the targets on a Thursday (start of the sprint), schedule a project coordinator meeting mid week and export this file as a PDF at the end of every sprint and uploaded to the Captivate Intranet on Basecamp.

Status: Project is ON TRACK.

If off-track:

What is the reason of not meeting this week's sprint targets? Is this clear among all team members?

How to close delay and action plan to get back on teack

What will this delay cost? Does everyone understand this cost?

Are we pushing a launch? Will it mean the end of this project will be pushed by 1 week?
